Europe and China

SIMPLE. SUSTAINABLE. DURABLE.

AEGIS A Breath of Fresh Air.

- Surface protection that combats bacteria
- Applied to fabric during normal manufacturing process
- Free of arsenic, tin and other heavy metals that can remain in the environment after use
- Applications include polyester, poly-blends, fleece, insulation, fiberfill, foam, leather and synthetic leather
- Charge-disruption mode of action eliminates microbes that cause odor, stains and deterioration

AEGIS EXCALIBUR Go All Out. Without Your Fabric Smelling Like It.

- Odor and surface protection that combines an antimicrobial with odor absorbing functionality
- Applied to fabric during normal manufacturing process
- Readily breaks down in the environment to basic, naturally occurring materials like water, silicon dioxide (sand) and carbon dioxide
- Applications include polyester, poly-blends, fleece, insulation, fiberfill, foam, leather and synthetic leather

PROTECTION THAT LIVES ON
